WORK EXPERIENCE

Hazeltree: Bournemouth, United Kingdom - hazeltree.com

Senior Technical Writer / Team Lead | *February 2018 - January 2026*

- Technical Writing:** Architected and launched a centralized MadCap Flare-powered Knowledge base (200+ guides) and Swagger-based OpenAPI specification (70+ endpoints). Established standards for client-facing documentation and internal Confluence documentation, reducing the support team's workload by 30%.
- Team Leadership:** Led a team of two technical writers. Established docs-as-code workflow that increased content reusability by 80%. Integrated AI tools (Claude, Copilot, Grammarly) that doubled delivery effectiveness. Developed a Python data retrieval script to optimize the release notes delivery cycle.
- User Experience (UX):** Collaborated with development teams to improve platform UI screen text and REST API error messaging. Produced 50+ training presentations for internal teams and clients.

Hazeltree: Saint Petersburg, Russia - hazeltree.com

Database Support & Implementation Specialist | *November 2016 - February 2018*

- **Implementation & Support:** Managed end-to-end Tier 2/3 support workflows for a C#/ETL project (Zendesk, TFS), configuring custom application features. Led full implementation cycle for 10 clients (hedge funds and accounting systems). Managed platform deployments through Octopus Deploy.
- **Servers' maintenance:** Provisioned and configured client Windows Server environments, including Task Scheduler, Active Directory, SQL Server installation, and performance tuning.
- **Database administration:** Maintained SQL Server databases by authoring complex stored procedures and data processing scripts. Controlled the ETL process on the database level.

ETNA Trader: Saint Petersburg, Russia - etnasoft.com

Technical Support & Implementation Agent | *January 2016 - November 2016*

- **Client Support:** Provided technical customer support (phone and Zendesk) and system health monitoring (Zabbix). Developed an internal Confluence knowledge base to streamline team operations.
- **Implementation and maintenance:** Executed platform deployments across cloud and on-premises environments, actively improving CI/CD reliability by authoring XML Octopus transformation scripts.
- **System Operations:** Maintained the core Order Management System (OMS)—managing order lifecycles, broker routing, and FIX session monitoring.

Intermedia Inc.: Saint Petersburg, Russia - intermedia.net

Level 1 Technical Support & Onboarding Engineer | *October 2012 - December 2015*

- **Technical Support:** Provided Level 1 MS Exchange administration and technical support, managing user accounts, permissions, and basic server maintenance.
- **Onboarding:** Carried out onboarding processes for migrating clients. Configured, troubleshooted, and provided user guidance for MS Outlook, Thunderbird, BlackBerry, iOS/Android (ActiveSync), Microsoft Lync, OWA, Hosted PBX, and SharePoint.
- **Technical Writing:** Authored helping articles and support instructions for the client-facing Knowledge Base.

EDUCATION

Specialist Degree in Information Systems Engineering (Economics & Management)

Saint Petersburg State University of Engineering and Economics | 2008 – 2013

Exchange Program in Computer Science & Mathematics (Informatik/Mathematik)

HTW Dresden (Hochschule für Technik und Wirtschaft) | Germany | 2010 – 2011
